14th January 2011

Dear Shelley,

Thank you for submitting the Cognitive Assessment training – Online (CAT-O) course for re-endorsement by the College of Occupational Therapists.

An educator and practitioner assessor have scrutinised the application against the endorsement criteria and I am pleased to confirm that the College will endorse the training tool until 31st January 2012.

Should the content of the training change before this date, please notify us in writing prior to the amendments being made to the online tool in order to maintain the endorsement.

An annual evaluation report is to be submitted to the College for review in October 2011.

A certificate of endorsement and the COT endorsed logo has been sent electronically and you may now advertise the online training tool as '**Endorsed by the College of Occupational Therapists**'.

The course will continue to be advertised as endorsed on the College's interactive Learning Opportunities Database until 31st January 2012 at no additional cost.

If anything is unclear, please contact me on 020 7450 2344 or clair.parkin@cot.co.uk.

Yours sincerely,

Clair Parkin
Education Manager
(Quality & Standards)
