

Cognitive Assessment Training - Online

Endorsed by the College of Occupational Therapists

This online training package enables professional therapists to use certain neuropsychological assessments usually restricted to psychologists.

Training for:

Behavioural Assessment of the Dysexecutive Syndrome (BADS)

Doors and People

Test of Everyday Attention (TEA)

Training details:

- The training costs £186.00 exc VAT
- This will give you access to online training for any or all of the three products
- You will also need to be able to access hard copies of the products you wish to train on
- Expected completion time for the whole course is about 5 hours online learning, with a further 3 hours self-directed.

Training includes:

- In-depth background on statistical concepts important for test selection, administration, scoring and interpretation
- Information on theoretical aspects of the tests and practical guidance on administration, scoring and interpretative issues to facilitate the therapist's selection and application of standardised assessments with service users
- Multiple choice questions to assess a candidate's understanding of statistical concepts and the tests involved in the training
- Certification on completion to use *BADS*, *Doors and People* and *TEA*.

Training features:

- Enables you to learn at your own pace in the convenience of your home or office
- Access to online tutor and discussion forums
- Library of relevant resources.
