## INTRODUCTION

The Quality of Life Inventory (QOLI) provides a score that indicates a person's overall satisfaction with life. People's life satisfaction is based on how well their needs, goals, and wishes are being met in important areas of life. The information in this report should be used in conjunction with professional judgment, taking into account any other pertinent information concerning the individual.

(Raw Score: -0.3)  
**T Score: 28**  
 (%ile Score: 3)

### Overall Quality of Life

### Weighted Satisfaction Profile

---

## **OVERALL QUALITY OF LIFE CLASSIFICATION**

The client's satisfaction with life is Very Low. This person is extremely unhappy and unfulfilled in life. People scoring in this range cannot get their basic needs met and cannot achieve their goals in important areas of life. This person is at risk for developing physical and mental health disorders, especially clinical depression. This risk remains until the client's score reaches or exceeds the Average range. The client should be assessed and treated for any psychological disturbances.

## **WEIGHTED SATISFACTION PROFILE**

The Weighted Satisfaction Profile helps to explain a person's Overall Quality of Life by identifying the specific areas of satisfaction and dissatisfaction that contribute to the QOLI raw score. Clinical experience suggests that any negative weighted satisfaction rating denotes an area of life in which the individual may benefit from treatment; ratings of -6 and -4 are of greatest concern and urgency. Specific reasons for dissatisfaction should be investigated more fully with the client in a clinical interview. The *Manual and Treatment Guide for the Quality of Life Inventory* suggests treatment techniques for improving patient satisfaction in each area of life assessed by the QOLI.

The following weighted satisfaction ratings indicate areas of dissatisfaction for the client:

<u>Area</u>	<u>Weighted Satisfaction Rating</u>
<b>Self-Esteem</b>	<b>-6</b>
<b>Health</b>	<b>-4</b>
<b>Friends</b>	<b>-4</b>
<b>Relatives</b>	<b>-4</b>
<b>Money</b>	<b>-3</b>
<b>Work</b>	<b>-2</b>
<b>Play</b>	<b>-2</b>
<b>Love</b>	<b>-2</b>

## **OMITTED ITEMS**

None omitted.

## **End of Report**

---

NOTE: This and previous pages of this report contain trade secrets and are not to be released in response to requests under HIPAA (or any other data disclosure law that exempts trade secret information from release). Further, release in response to litigation discovery demands should be made only in accordance with your profession's ethical guidelines and under an appropriate protective order.
