

Bayley Scales of Infant and Toddler Development Third Edition (Bayley-III)

Two-day Training Workshop

1st and 2nd March 2019, 9:00am to 16:30pm

Venue: The Sensory Smart Child Clinic – Walton-on-Thames KT12 2SD

Booking enquiries to: marian@thesensorysmartchild.com

OVERVIEW

This is an introductory two-day workshop to the Bayley III, which assesses developmental functioning for infants and young children aged from 1 month to 42 months. The training is interactive and will introduce course participants to the Bayley III and includes both video case studies and 'live' demonstrations with a young child. Participants will learn how to administer and score the Cognitive, Language and Motor scales as well as the Social Emotional and Adaptive Behaviour Scales. However additional practice in administering the test items will be required after the training in order for examiners to become fully competent Bayley testers.

About the course trainer: Dr. Betty Hutchon DSc MRCOT

The workshop will be presented by the UK and international Bayley master trainer - Betty Hutchon - Consultant and Neurodevelopmental Therapist, University College Hospital, London and Head of Paediatric Occupational Therapy and physiotherapy at the Royal Free Hospital, London. Betty has worked extensively with the test publishers providing training on the previous edition of the Bayley and subsequently she worked with the US team as a consultant in the revision to produce the Bayley III.

Who is it for?

Community and general paediatricians, neonatologists, paediatric trainees, psychologists, occupational therapists, physiotherapists, researchers and any health professional involved in the detailed developmental assessment of infants and young children, are invited to attend.

Aims and objectives

On completion of the two day workshop participants will be able to:

- Administer and score the Bayley III
- Chart a child's progress using Bayley III
- Understand the constructs upon which the Bayley III is based
- Interpret and communicate outcomes from Bayley III

Please note as the complete test kit (which includes the manual) is needed to administer the Bayley the **manual is not provided as part of this training**. Whilst it is not necessary to have a Bayley kit prior to attending this training it is advisable to have it available as soon as possible after the training in order to practice administration.

Cost: £300 (includes handouts, lunch and refreshments).

Paediatricians attending this event may claim up to 11 CPD credits, in accordance with the current RCPCH CPD guideline.

Venue: The Sensory Smart Child, Unit 6, Walton Business Centre, Terrace Road, Walton-on-Thames, KT12 2SD.
