

# Bayley Scales of Infant and Toddler Development Third Edition (Bayley III)

Two day training workshop, **Thursday 16<sup>th</sup> and Friday 17<sup>th</sup> May 2019**

Bristol Royal Hospital for Children

**Overview:** An introductory 2-day workshop to the Bayley III developmental assessment. Participants will learn how to administer and score all aspects of the Bayley III. The interactive course will include video case studies and live demonstrations

**£300** (including handouts, lunch & refreshments)

## **Trainer: Dr. Betty Hutchon DSc MBAOT UK Bayley Trainer**

- Consultant & Neurodevelopmental Therapist, University College Hospital London
- Head of Paediatric Occupational Therapy, Royal Free Hospital, London.

**Suitable for** Community and general paediatricians, neonatologists, paediatric trainees, psychologists, occupational therapists, physiotherapists, researchers and any health professional involved in the detailed developmental assessment of infants and young children, are invited to attend.

### **On completion of the two day workshop participants will be able to:**

- Administer and score the Bayley III
- Chart a child's progress using Bayley III
- Understand the constructs upon which the Bayley III is based
- Interpret and communicate outcomes from Bayley III

*Please note as the complete test kit (which includes the manual) is needed to administer the Bayley the manual is not provided as part of this training. Whilst it is not necessary to have a Bayley kit prior to attending this training it is advisable to have the complete kit with manual available as soon as possible after the training in order to practice administration.*

**RCPCH CPD approval applied for**
