

Using Selected Pearson Clinical Assessment Content in Your Telepractice

Telepractice is a growing service delivery model around the world. Pearson Clinical Assessment supports the use of validated assessment content in appropriate clinical contexts (see additional discussion at: PearsonClinical.co.uk/telepractice). This chart will help you determine the most appropriate path for you and your organisation to work together with us. It is important that you contact us for more information prior to your use of Pearson assessment content via telepractice—permission and licencing requirements may apply. Contact us at: PearsonClinical.co.uk/ContactUs

Instructions:

- ① Review each question in the table.
- ② Mark the appropriate answer for you/your organisation in each row.
- ③ Review your selections to help you determine which option (i.e., Q-global® or Licencing) may be best for you.
- ④ Sign-up to try out Q-global. It may likely be the best, quickest, and most cost-effective option for you. You may purchase access to our telepractice-friendly Q-global content at PearsonClinical.co.uk/Q-global

Questions	Q-global	Licencing
Approximately how many test administrations will you need per year? (in total, can include one or more Pearson Clinical Assessment tests)	1-500	More than 500
