

Introducing Q-global Video Proctoring (Q-gVP)

© 123rf/ artemon91

Take a look at the table on the back side to review 30+ assessments that can be used with Q-gVP.

With Q-global® Video Proctoring you can have the convenience and confidence of face-to-face conversation and administration — all within your normal Q-global workflow. You can easily assign one of **30+ assessments** (see next page) and proctor 'in person' via video without juggling a third-party platform. Once the assessment is complete, you can remain online with your client to consult or review results.

As an added value, this subscription allows all your Q-global users under your Q-global Account to have access to Q-global Video Proctoring.

What's the cost?

Q-gVP is an account-level subscription, which means all users on your Q-global account will have the ability to use Q-gVP for the cost of a single subscription. You have two options for purchasing a Q-gVP subscription.

Subscription Options

Term	ISBN	Cost
30-day subscription	9780749183936	£15
12-month subscription	9780749183943	£146
