

If dyslexia
screening is on
your to-do list...

**KTEA-3 or WIAT-4 subtests
are ready to assist.**

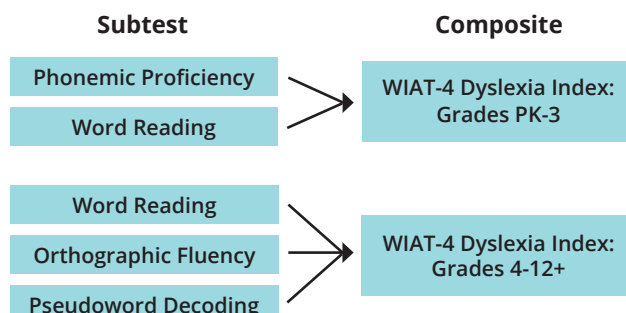

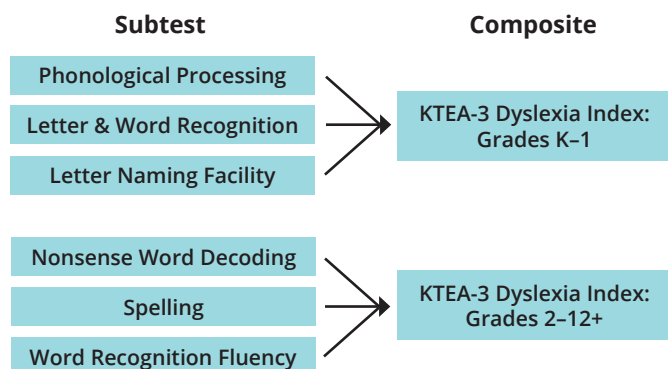

The Dyslexia Index for the KTEA™-3 or WIAT®-4 provides a simple way to screen for dyslexia with stimulus materials, and each test has its own data and scores for your convenience. The Dyslexia Index can be used for screening, inclusion in a comprehensive assessment battery, and as a tool for research.

The Dyslexia Index

- Individual administration time of 20 minutes or less
- New composite scores based on 2-3 selected subtests of the KTEA-3 or WIAT-4 that are highly clinically sensitive for identifying individuals at risk for dyslexia
- Screening for children and adults, covering the full age range of the KTEA-3 and WIAT-4
- Clinical results for differentiating dyslexia groups from matched control groups were significant ($p < .01$) with very large effect sizes (1.76-2.11)
- Option to contribute the results to a comprehensive evaluation without readministering subtests

The logo for KTEA-3, featuring a large, stylized 'K' in blue and green, followed by 'TEA-3' in green.The logo for WIAT-4, featuring a red square with a white stylized 'W' inside, followed by 'WIAT-4' in black.

Composite Structure

The KTEA-3 or WIAT-4 Dyslexia Index is available in paper or as digital assets (manual, stimulus book) on Q-global®, Pearson's web-based platform.

How do you want to use it? Here's what is available:

Print/Digital Combo Kits (for KTEA-3 and WIAT-4)

Digital Manual, Digital Stimulus Book, Digital Response Booklet (for display purposes only),
Print Record Forms, Print Response Booklets

Individual Components (for KTEA-3 and WIAT-4)

Print Components: Manual, Record Forms (pack of 25), Response Booklets (pack of 25)

Digital Components: Manual, Stimulus Booklet, Response Booklet (single copy for display only during the administration)

Scoring/Reporting (for KTEA-3 and WIAT-4)

Hand scoring for screener-only use

Q-global/Q-interactive scoring and reporting when using the full/comprehensive test
