

Introducing the new Q-interactive Assess app

Introducing the most user-friendly and streamlined **Q-interactive® Assess App** ever! We've spent 10 years listening to customer feedback that helped us develop this brand-new app. You'll enjoy an improved workflow, easier access to our digital assessments, fewer swipes, and greater functionality from a single screen.

What can I expect from the new app?

- Improved workflow and user experience based on a decade of Q-interactive customer feedback
- Brand new look and feel
- Performance and reliability improvements (including improved connectivity between iPad® devices)

What happens next?

- The existing app will be supported until April 2024, giving you plenty of time to transition to the new app
- App transition instructions and training will be available throughout the year

Where can I get more information?

Visit our webpage where you will be able to get more details, timelines, FAQs, webinars, and more as they become available!

Visit our new **Q-interactive Assess** page for more information →

New app = new features

Check out some of the new features of the new app:

New dashboard features:

- New search function
- Sorting capabilities
- Flags for items that need resolution
- Pre-test system health check so you know you're ready to begin

Updated assessment details page enables you to:

- See all the information you need, including assessment duration
- Easily edit examinee information and your test battery from one screen

Improved notes function lets you:

- Delete a note
- Mark a note as important
- Adjust the opacity of a note to see content underneath
- Move a note around your screen

New results screen functionality:

- Open subtests and composites to view more information
- New visual representation of subtest scaled and composite scores

See the rest of the new features on our [Q-interactive Assess](#) page →
