

# Forensic Psychology

Our range of leading forensic psychology assessments give you the confidence to make reliable diagnostic and treatment decisions

[pearsonclinical.co.uk](http://pearsonclinical.co.uk)

# Web based scoring and reporting with Q-global®

Q-global® is used for self or supervised on-screen test administration of many of Pearson's rating scale or questionnaire-type assessments. Secure, affordable and easy to use, Q-global® also allows you to enter results from paper-and-pencil tests to generate scores and reports with the convenience and flexibility of a web-based system.

Q-global® is...

- **Portable** – Scoring and reporting from any device connected to the internet
- **Efficient** – Facilitate many assessments on-screen in your office, or email a link to a rater or examinee to complete remotely
- **Extensive** – Scoring for more than 65 assessments available, many offering on-screen administration
- **Flexible** – Generate scores and reports for individuals or groups
- **Comprehensive** – Reliable, online reporting solutions including interpretative and group reports
- **24/7 Secure** – meets security requirements with data encryption
- **Economical** – Purchase report usages as needed or save with unlimited-use scoring subscriptions for paper administrations\*
- **Online ordering** – orders can be placed via Pearson's e-commerce site [pearsonclinical.co.uk](http://pearsonclinical.co.uk) or directly via Customer Services.

\*Available for some assessments

## Setup your Q-global® Account

Creating your Q-global® account is simple and easy to do.

Visit [pearsonclinical.co.uk/qglobalaccount](http://pearsonclinical.co.uk/qglobalaccount) to complete and submit the online form. Our Customer Service Team will contact you with your new account details.

Many of your favourite tests are available on Q-global® including:

Minnesota Multiphasic  
Personality Inventory-2  
Restructured Form™

MCMI®-IV  
MILLON® CLINICAL  
MULTIAXIAL INVENTORY-IV

MBMD™  
MILLON™ BEHAVIORAL  
MEDICINE DIAGNOSTIC  
by Theodore Millon, PhD, SSC, Michael Arora, PhD,  
Carmy Miller, PhD, Sarah Miller, PhD, and Seth Grossman, PhD

And more!

# Minnesota Multiphasic Personality Inventory-Adolescent Restructured Form™ (MMPI-A-RF™)

Robert P Archer, Richard W Handel,  
Yossef S Ben-Porath and Auke  
Tellegen, 2016

The MMPI-A-RF is the most up-to-date, empirically based personality assessment for use with adolescents. The test mirrors the structure of the MMPI-2-RF, the most recent version for use with adults, and includes several adolescent-specific scales.

Clinical, educational, and counselling psychologists can use this self-report inventory to support:

- Diagnosis and treatment planning in a variety of settings
- Early identification of potential problems and possible root causes
- Information sharing with parents, teachers, and others in the adolescent's support network
- Decision making for appropriate referrals.

## Key Features

- **Psychometrically up-to-date and linked to current models of psychopathology.** The test manual provides comprehensive documentation on the development of this contemporary broadband assessment - including empirical correlates of the scales in a variety of settings
- **Comparison Groups.** Data is reported in the test manual, and can be accessed in the reports for an additional level of interpretation that allows the comparison of individual test results with relevant reference groups
- **Customisable reporting.** Innovative scoring and reporting software allows a clinician to create and share custom comparison groups as well as to set user-designated parameters for reporting item-level information on additional scales and for lowering cutoffs on critical responses.

**NEW**

**Overview:** The most up-to-date, empirically based personality assessment for use with adolescents

**Age Range:** 14 years to 18 years

**Administration:** 25 to 30 minutes computer-administered; 30-45 minutes paper and pencil

**Qualification code:** CL1

**Starter kit:** Includes manual, 25 answer sheets, all 5 sets of profile forms, all 5 sets of answer keys, and 1 durable spiral-bound test booklet

**ISBN:** 978 0 749171 40 7

# Minnesota Multiphasic Personality Inventory®-2 (MMPI®-2)

## **MMPI®-2** Minnesota Multiphasic Personality Inventory-2

James N Butcher, John R Graham, Yossef S Ben-Porath, Auke Tellegen, W. Grant Dahlstrom, Beverly Kaemmer, 1989, 2001 (revised), updated 2003 and 2009

The MMPI®-2 is the most widely used and widely researched test of adult psychopathology. The MMPI®-2 tests normative sample and extensive research base help make it the gold standard in assessment for a wide variety of settings.

### The test can be used to help:

- Assess major symptoms of social and personal maladjustment
- Identify suitable candidates for high-risk public safety positions
- Support classification, treatment, and management decisions in criminal justice and correctional settings
- Give a strong empirical foundation for a clinician's expert testimony
- Assess medical patients and design effective treatment strategies, including chronic pain management
- Evaluate participants in substance abuse programmes and select appropriate treatment approaches
- Support college and career counselling recommendations
- Provide valuable insight for marriage and family counselling.

**Overview:** Test of adult psychopathology

**Age Range:** 18 years and older

**Administration:** Individual - 60 to 90 minutes

**Qualification code:** CL1

**MMPI-2 Hand score introductory kit:** Includes manual and all the materials necessary to administer and score 50 MMPI-2 protocols and 10 test booklets

**ISBN:** 978 0 749153 68 7

# Minnesota Multiphasic Personality Inventory-2 Restructured Form® (MMPI-2-RF®)

Minnesota Multiphasic  
Personality Inventory-2  
Restructured Form™

Yossef S Ben-Porath, Auke Tellegen, 2008

The **MMPI-2-RF®** is linked to current models of psychopathology and personality. A comprehensive technical manual reports empirical correlates of the scales in a range of settings. Composed of 338 items, with the RC (Restructured Clinical) Scales at its core, the **MMPI-2-RF®** builds on the strengths of the **MMPI-2** test to create a new standard.

## Scoring and Reporting

The **MMPI-2** and the **MMPI-2-RF** can now be scored in Q-global®, Pearson's web-based scoring and reporting platform.

Also available on Q-global® is the **MMPI-2-F Police Candidate Interpretive Report**. Developed by internationally recognized police psychologist David M. Corey and MMPI-2-RF expert Yossef S. Ben-Porath, this report helps to identify behavioural and personality characteristics that are inconsistent with effective police officer performance.

**Overview:** Assess major symptoms of psychopathology, personality characteristics and behavioural proclivities

**Age Range:** 18 years and older

**Administration:** Individual - 35 to 50 minutes

**Qualification code:** CL1

**MMPI-2-RF Handscore starter kits:** Includes manual, technical manual, 25 answer sheets, all 5 sets of profile forms, all 5 sets of answer sheets and 5 test booklets

**ISBN:** 978 0 749154 59 2

## Go digital with Q-global®

Q-global®, Pearson's web-based administration, scoring and report system brings you all of the trusted assessments you love on Q-Local with the many benefits that come with a web-based delivery system. Developed for psychologists, health professionals and educators who want the ease, reliability, and security of a cost-effective, common web-based platform for administration, scoring and reporting needs.

# Millon® Clinical Multiaxial Inventory-IV (MCMI®-IV)

## MCMI®-IV

MILLON® CLINICAL  
MULTIAXIAL INVENTORY-IV

Dr Theodore Millon, Seth Grossman, Carrie Millon, 2015

The **MCMI-IV** provides helpful clinical insights into a patient's personality that allows clinicians to make reliable diagnostic and treatment decisions.

The **MCMI-IV** offers updated norms that are based on a clinical adult population, a new scale, DSM-5® and ICD-10-CM alignment, updated narrative content and a new and deeper therapeutic focus. The brevity of the **MCMI-IV** allows clinicians to maintain an efficient and productive clinical practice.

### New Features

- Full normative update, more closely representing the current clinical adult population
- New Turbulent scale, providing deeper understanding of those patients presenting with this unbridled personality type
- New and updated test items characterising the evolution of Dr. Millon's personality theory, refreshed to increase clarity and clinical relevance
- New and improved narrative content that better integrates results with therapeutic practice and links to personalised treatment
- Updated Grossman Facet Scales
- New digital end-to-end workflow with the introduction of a digital manual option via Q-global, Pearson's web-based scoring and reporting platform.

**Overview:** Assessment of DSM-5®-related personality disorders and clinical syndromes

**Age Range:** 18 years and older

**Administration:** 25 to 30 minutes

**Qualification code:** CL1

**Print Manual**

**ISBN:** 978 0 749 170 51 6

# Millon™ Pre-Adolescent Clinical Inventory (M-PACI™)

Dr Theodore Millon, Carrie Millon, Robert Tringone, Seth Grossman, 2005

**M-PACI®**

MILLON® PRE-ADOLESCENT  
CLINICAL INVENTORY  
by Theodore Millon, PhD, DSc, Robert Tringone, PhD,  
Carrie Millon, PhD, and Seth Grossman, PsyD

Unlike instruments that focus on a single clinical area such as anxiety or depression, the **M-PACI** assessment provides an integrated view that synthesises the child's emerging personality styles and clinical syndromes, helping clinicians detect early signs of Axis I and Axis II disorders.

**Use M-PACI results to help:**

- Evaluate troubled pre-adolescents to confirm diagnostic hypotheses
- Contribute to individualised treatment planning by providing an integrated picture of emerging personality patterns and current clinical signs
- Measure progress before, during and after treatment.

**Overview:** Identify psychological problems in pre-adolescent children

**Age Range:** 9 years to 12 years

**Administration:** Individual - 15 to 20 minutes

**Qualification code:** CL1

**M-PACI Handscore starter kit:** Includes manual, 50 answer sheets, 50 profile forms and answer keys

**ISBN:** 978 0 749154 19 6

# Millon™ Adolescent Clinical Inventory (MACI™)

Dr Theodore Millon, Carrie Millon, Roger Davis, Seth Grossman, 1993

**MACI®**

MILLON® ADOLESCENT  
CLINICAL INVENTORY  
by Theodore Millon, PhD, DSc, with Carrie Millon, PhD,  
Roger Davis, PhD, and Seth Grossman, PsyD

The **MACI** assessment was specifically created to address the unique concerns, pressures and situations facing adolescents. Enhanced by the addition of Grossman Facet Scales, this tool helps assess personality patterns as well as self-reported concerns and clinical symptoms.

**This versatile instrument is essential in helping to:**

- Conduct detailed evaluations to confirm diagnostic hypotheses
- Create individualised treatment planning
- Measure progress before, during and after treatment.

**Overview:** Helps assess personality patterns as well as self-reported concerns and clinical symptoms

**Age Range:** 13 years to 19 years

**Administration:** Individual - 25 to 30 minutes

**Qualification code:** CL1

**MACI Handscore starter kit:** Includes manual, 10 test booklets, 50 answer sheets, 50 worksheets, 50 profile forms and answer keys

**ISBN:** 978 0 749153 48 9

# Millon™ Behavioral Medicine Diagnostic (MBMD)

Dr Theodore Millon, Michael Antoni, Carrie Millon,  
Sarah Minor, Seth Grossman, 2001

**MBMD™**

MILLON™ BEHAVIORAL  
MEDICINE DIAGNOSTIC

by Theodore Millon, PhD, DSc, Michael Antoni, PhD,  
Carrie Millon, PhD, Sarah Minor, PhD, and Seth Grossman, PsyD

The **MBMD** assessment helps provide a broader understanding of the personal reality that each patient faces. By helping identify psychosocial assets and liabilities that may affect an individual's response to treatment, the **MBMD** test enables clinicians to develop tailored treatment recommendations.

**Psychologists, physicians, nurses and other professionals use the MBMD results to help:**

- Identify patients who may have significant psychiatric problems and recommend specific interventions
- Pinpoint personal and social assets that may facilitate adjustment to physical limitations or lifestyle changes
- Determine whether patients need more communication and support in order to comply with prescribed medical regimens.

**Overview:** Assess psychosocial factors that may support or interfere with a chronically ill patient's course of medical treatment

**Age Range:** 18 years and older

**Administration:** Individual - 20 to 25 minutes

**Qualification code:** CL2

**MBMD Handscore starter kit:** Includes manual, user's guide, 50 worksheets, 50 profile forms and answer keys

**ISBN:** 978 0 749153 55 7

# Millon™ Index of Personality Styles Revised (MIPS® Revised)

Dr Theodore Millon, 2003

**MIPS® REVISED**

MILLON® INDEX OF  
PERSONALITY STYLES *REVISED*

by Theodore Millon, PhD, DSc

While brief to administer, the **MIPS Revised** test provides a comprehensive, up-to-date evaluation that surpasses the scope of many other normal personality assessments.

**The MIPS Revised instrument addresses three key dimensions of normal personalities:**

- Motivating Styles, which helps to assess the person's emotional style in dealing with his/her environment
- Thinking Styles, which helps to examine the person's mode of cognitive processing
- Behaving Styles, which helps to assess the person's way of interrelating with others.

**Overview:** A brief, well-rounded personality measure designed to assess normal personality styles for adults

**Age Range:** 18 years and older

**Administration:** Individual - 30 minutes

**Qualification code:** CL2

**MIPS Handscore starter kit:** Includes MIPS Revised manual, 10 test booklets, 50 answer sheets and answer keys

**ISBN:** 978 0 749157 60 9

# Validity Indicator Profile (VIP)

Richard I Frederick, 2003

Designed to help meet the increasing need for a well-validated, psychometrically sound test that can provide empirical support in courtrooms and other legal institutions, the VIP test provides a broad spectrum of information about an individual's performance on an assessment battery.

The test is useful to neuropsychologists, forensic and clinical psychologists in a variety of situations, including:

- Civil and criminal trials
- Competency-to-stand-trial evaluations
- Medical insurance examinations.

**Overview:** A tool to help support forensic or neuropsychological evaluations

**Age Range:** 18 years to 69 years

**Administration:** Verbal subtest: 20 minutes (78 items),  
Nonverbal subtest: 30 minutes (100 items)

**Qualification code:** CL1

**Q Local starter kit:** Includes manual, 3 answer sheets, 1 test book and 3 Q Local Interpretative Reports.

*NB: You will also need to purchase Q Local Software*

**ISBN:** 978 0 749160 38 8

# Hare Psychopathy Checklist-Revised: (PCL-R) 2nd Edition

Robert D Hare, 2003

Hare PCL-R™ is a 20-item symptom-construct rating scale designed to assess psychopathic (antisocial) personality disorders in forensic populations.

It provides complete coverage of the domain of psychopathic traits and behaviours. The PCL-R™ **Rating Booklet** facilitates rating the 20-item scale, and the Quikscore™ Form is used to record the ratings, obtain the scores, and profile the results.

**Overview:** Assess psychopathic personality disorder

**Age Range:** 18 years and older

**Administration:** Individual - Interview section - 90 to 120 minutes; Collateral review - 60 minutes

**Qualification code:** CL1

**PCL-R Complete kit:** Includes manual, 1 rating booklet, 25 Quikscore™ forms and 25 interview guides

**ISBN:** 978 0 749125 20 2

# Aggression Questionnaire (AQ)

Arnold H Buss, W L Warren, 2000

Screen children and adults for aggressive tendencies with this routine self-report inventory. The **Aggression Questionnaire (AQ)** measures an individual's aggressive responses and his or her ability to channel those responses in a safe, constructive manner.

**Use the Aggression Questionnaire (AQ) to measure:**

- Physical Aggression
- Hostility
- Verbal Aggression
- Indirect Aggression
- Anger

**Overview:** Measure aggressive behaviour in any setting - in children or adults - in less than 10 minutes

**Age Range:** 9 years to 88 years

**Administration:** Individual - 10 minutes

**Qualification code:** CL2R

**AQ Complete kit:** Includes 25 AutoScore answer forms and manual

**ISBN:** 978 0 749160 88 3

# Novaco Anger Scale and Provocation Inventory (NAS-PI)

Raymond W Novaco, 2003

The **NAS-PI** helps clinicians and researchers evaluate the role of anger in various psychological and physical conditions. Brief and easy-to-administer, this self-report questionnaire is an excellent way to assess anger in clinical, community and correctional settings.

**Overview:** Tells you how individuals experience anger and what kind of situations provoke it

**Age Range:** 9 years to 84 years

**Administration:** 25 minutes

**Qualification code:** CL2

**NAS-PI Complete kit:** Includes manual and 25 test forms

**ISBN:** 978 0 749140 97 7

# Paulhus Deception Scales (PDS)

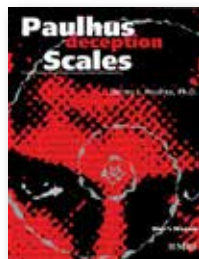

Delroy L Paulhus, 1998

The **PDS** is a self-report instrument that identifies individuals who, when responding to assessments and rating scales, distort their responses.

It is designed to be administered concurrently with other instruments to indicate the validity of the results of the other instruments. It contains 40 items that use contemporary, gender-neutral language.

## Key areas measured:

- Impression management
- Self-Deceptive Enhancement

**Overview:** A self-report instrument that identifies individuals who, when responding to assessments and rating scales, distort their responses

**Age Range:** 18 years and older

**Administration:** Individual - 5 to 7 minutes

**Qualification code:** CL2

**PDS Complete kit:** Includes user's manual and 25 QuickScore Forms

**ISBN:** 978 0 749146 03 0

# Spousal Assault Risk Assessment Guide (SARA)

Christopher D Webster, Derek Eaves, P Randall Kropp, Stephen D Hart, 1999

The **Spousal Assault Risk Assessment Guide (SARA)** helps criminal justice professionals predict the likelihood of domestic violence. The tool is a quality-control checklist that determines the extent to which a professional has assessed risk factors of crucial predictive importance according to clinical and empirical literature.

**Overview:** An assessment of the likelihood of domestic violence

**Age Range:** Males 18 years and older

**Administration:** Professional-completed - 60 to 90 minutes

**Qualification code:** CL2R

**SARA Complete kit:** Includes manual, 25 checklist forms and 25 QuikScore forms

**ISBN:** 978 0 749140 33 5
