Use of the MMPI-3 in Forensic Settings

Presented by: Martin Sellbom, Ph.D.

Tuesday, April 27, 2021
4:00 p.m. to 5:30 p.m. Eastern

Sponsored by Pearson Clinical Assessment

Overview

This advanced forensic webinar is intended for practitioners who wish to know more about the benefits of using the MMPI-3 in forensic settings. Join Dr. Martin Sellbom of the University of Otago (New Zealand) as he discusses how to remain current in assessment by adopting the MMPI-3 in your forensic practice. Dr. Sellbom will cover some general considerations for using the test in forensic psychology practice and offer illustrative case comparisons that demonstrate how using the MMPI-3 can enhance clinical effectiveness and efficiency.

Learner Outcomes

As a result of this activity, the participants will be able to:

1. Describe major features of the MMPI-3 specifically related to forensic cases
2. Describe the different considerations for using the MMPI-3 in various forensic psychological evaluations
3. Apply systematic, standardized guidelines to MMPI-3 test interpretation
